

# Rain or Shine: Five Diverse Factor Indices in a Single Index

With the S&P 500<sup>®</sup> Factor Rotator Daily RC2 7% Index (Factor Rotator 7% Index), you have access to two Index Accounts that offer credits based upon Factor Investing, a strategy designed to enhance diversification, generate above-market returns and manage risk.

- Uncapped Strategy based on Excess Return Index (participation rate applies, and an annual spread may apply in the future)
- Annual Point to Point Index Account
- 2-yr Point to Point Index Account

This Index is a weighted return index designed to track the best performing two out of five S&P 500<sup>®</sup> factor indices (below) based on past risk-adjusted return. This index rotates the factor strategies each month based on past performance – with the best-performing factor strategy receiving a 75% weight and the second best-performing strategy receiving a 25% weight. Then, on a daily basis, a 7% volatility control is placed over the best two performing factors (comprised of the U.S. Two-year Treasury Futures Index and Cash) to help mitigate market volatility and leverage the underlying indices when volatility is low.

S&P 500 Quality	<b>Expected to Perform:</b> During economic slowdown when investors seek safety
S&P 500 Enhanced Value	<b>Expected to Perform:</b> During periods of economic recovery
S&P 500 Momentum	<b>Expected to Perform:</b> During periods of economic expansion
S&P 500 Low Volatility	<b>Expected to Perform:</b> During dramatic market swings or low interest rate environment
S&P 500 High Dividend	<b>Expected to Perform:</b> During economic slowdown and contraction

Guarantees provided by annuities are subject to the financial strength of the issuing insurance company. Annuities are not FDIC or NCUA/NCUSIF insured; are not obligations or deposits of and are not guaranteed or underwritten by any bank, savings and loan, or credit union or its affiliates; and are unrelated to and not a condition of the provision or term of any banking service or activity.

Security Benefit Life Insurance Company issues the Security Benefit Foundations Annuity, form 5800 (11-10) and ICC10 5800 11-10)), a fixed index flexible premium deferred annuity contract. Product features, limitations and availability may vary by state. In Idaho, Foundations is issued on form ICC10 5800 (11-10). Security Benefit Life Insurance Company is not licensed in and does not transact insurance business in New York.

Bonus annuities may include changes to the elements used to determine the index interest credits or changes to the interest rate that are not included in similar annuities without a bonus. These changes may include lower current interest rates, higher surrender charges, longer surrender charge periods, lower participation rates or caps, higher spreads, or other changes. The amount of charges or reduction in interest credits may exceed the amount of the bonus.
